PROFESSIONAL SUMMARY

UX/UI Product Designer and AI Product Designer based in Barcelona. I design and launch digital products end to end (discovery, user research, information architecture, Figma prototypes, responsive UI and design systems) and integrate generative AI, conversational agents and automations with OpenAI, Claude, Gemini, Botpress, Make, n8n and Vapi. Master in AI Agents and Process Hyperautomation (EBIS Business Techschool) and 17+ years of professional experience in B2B business and operations, including managing 100+ corporate accounts: I design with a focus on users, feasibility, conversion and efficiency.

Open to AI Product Designer, Product Designer, UX/UI Designer, AI Automation Specialist or Design Technologist roles.

SKILLS

Product design and research: Product discovery, problem framing, user research, interviews and surveys, benchmarking, SWOT analysis, personas, customer journey, service design, information architecture, user flows, wireframes, low and high fidelity prototypes, usability testing, Design Thinking, Design Sprint, Lean UX, Agile/Scrum.

UI and design systems: Figma, FigJam, auto layout, components and variants, design systems, design tokens, responsive and mobile-first, accessibility (WCAG principles), microinteractions, UX writing, documentation and developer handoff.

AI and automation: generative AI, prompt engineering, OpenAI, Claude, Gemini, Google AI Studio, Stitch, conversational agents, Botpress, Vapi, Make, n8n, hyperautomation, APIs and webhooks, RAG (architecture design).

Front-end and CMS: HTML, CSS, JavaScript, React, Next.js, Tailwind CSS, WordPress, Elementor, Shopify, Supabase, Firebase, GitHub.

Analytics and business: GA4, Hotjar, CRO, funnels, KPIs, advanced Excel, Power BI, Google Workspace, Notion, Jira, B2B enterprise, e-commerce, MVP, stakeholder management.

PROFESSIONAL EXPERIENCE

Product Designer UX/UI | Applied AI and Automation
Rodrigo Negrete · Independent professional | Barcelona / remote | 2024 – Present

- Design and launch digital products from research, benchmarking and flow definition to Figma prototypes, responsive interfaces, automations and web publishing.
- Integrate OpenAI, Claude, Gemini, Botpress, Make, n8n and Vapi for personalization, first-line support, operational automation and product experimentation.
- Work with HTML, CSS, JavaScript, React, WordPress and Shopify to validate feasibility with engineering, launch MVPs and learn from real products.

B2B Collections Manager | Orange Empresas
Abai Group (formerly Atento España; via Adecco, temp agency) · Orange Empresas client | Barcelona | Aug 2024 – Present

- Manage sensitive information, corporate portfolio, incidents and payment agreements with traceability, impact-based prioritization and cross-team coordination.
- Use advanced Excel, Microsoft Copilot and internal tools built with HTML/JavaScript to improve reporting, visibility and operational efficiency.

Operations and Customer Experience Coordinator
Garden España | Barcelona | Sep 2022 – Aug 2024

- Coordinated a team, incidents and processes; identified friction points and digitized protocols to improve traceability, response time and service experience.

E-commerce Founder | UX/UI and Web Designer
ParaTuMundo | Barcelona | Jan 2022 – Dec 2023

- Founded and ran a Shopify e-commerce store: market research, value proposition, architecture, catalog, product pages, content, SEO, analytics and conversion rate optimization (CRO).

Billing Analyst
Atento Chile (service for Movistar Empresas) | Chile | Aug 2016 – Oct 2019

- Managed the full billing cycle: invoice review and analysis to detect errors and ensure the accuracy of billed information.
- Implemented quality controls that improved the accuracy of reports and internal processes.

Account Manager / Sales Advisor
Atento Chile (service for Movistar Empresas) | Chile | Oct 2008 – Aug 2016

- Managed a portfolio of 100+ corporate accounts: personalized service, needs follow-up, contract negotiation, deal closing and strategic account loyalty in telecommunications. A direct foundation for designing products with a business mindset.

PROJECTS

ZODI · AI product, PWA, freemium
Astrology, tarot, numerology and community product with a personalized AI conversational chat, UX writing and its own visual identity. 17 reading types, 4 response tones, premium plans. Botpress, Make and OpenAI. rodrigonegrete.es/zodi/

Just Enjoy · Team master thesis, grade 10/10
Team project (3 members): travel hyperautomation platform with AI agents (27-node n8n workflow, GPT-4.1 and Next.js). My part: frontend, UX/UI design and interfaces, and part of the n8n automation. rodrigonegrete.es/just-enjoy/

Iberdata · Master final business case, solo project, exam 10/10
AI Center of Excellence for a 450-employee company: governance, RAG architecture, 2 pilots, 12-week plan, KPIs and risk matrix. rodrigonegrete.es/iberdata/

Events Planner · PWA for wedding planners
Offline-capable web app for a wedding studio, with a private couple portal, seating plan and printable contract; 15 database tests (pgTAP). rodrigonegrete.es/aem/

Dedícalo Play · real-time multiplayer game
Browser-based musical party game built with React and Supabase: concept, mechanics, branding, UX/UI and launch. 3 game modes. rodrigonegrete.es/dedicalo-play/

Invitoo · wedding tech with AI (founder)
Digital invitations with RSVP, animations, AI-generated songs (Suno) and Make automations. End-to-end UX/UI and web publishing. rodrigonegrete.es/invitoo/

Rodd.es · multilingual open source library
287 web resources (effects, React components, microinteractions, 3D scenes) with live preview and 7 native languages. rodd.es

Te Atiendo · UX research and service design
Restaurant service experience: 20 surveys and interviews (90% value rating the service), benchmark, SWOT, journey map and Figma prototype. rodrigonegrete.es/te-atiendo/
